THE UNIVERSAL CAR

The Ford is lighter than any other car of its size

and power. Yet stronger, sturdier, longer lasting. Vanadium steel, that's why. Vanadium is

the lurdest, strongess, toughest steel made. It is

the only steel that is hard and tough at the same

time. It is the highest priced steel that is used

in automobile construction. Yet the Ford is very

low in price. Its quality, terms, price and small cost of operation and upkeep, less than two cents a mile, have made it the universal necessity in town and country.
